

How To: Set Up Online Banking Alerts

Once you have enrolled in Online Banking, log into your account.

1. On the left hand "Menu", click **Settings - Alerts**.
2. To set up an online banking login alert, click the sliding bar on the right to either turn on the alert or keep off.
3. To add a new alert, click the orange button in the upper right corner, **+New Alert**.
4. Choose which type of alert you'd like to add, either a specific **Account Alert**, **History Alert**, or an **Online Transaction Alert**.
5. Fill out the necessary fields and click the orange button, **Create Account** when finished.

Alerts only generate at certain times throughout the day, and you may not get certain alerts if there is no new activity or balance changes on your account.
